

---

Scott,

On behalf of Burtech Pipeline, I wanted to thank you for visiting our main office last week to help improve the estimating and change order pricing side of our business.

We are in a growth mode now and are taking steps to improve our estimating and, soon enough, our cost controls in accounting. Your construction experience, beyond the software, proved invaluable to us as we start to make initial fundamental decisions in what our cost control system will be.

Thanks again for your time, and the sharing of your lessons learned through your own personal execution of pipeline and heavy/civil work. I would be more than willing to serve as a reference should others be interested in obtaining your services.

Thank you,

A handwritten signature in blue ink that reads "Jose Rolon". The signature is fluid and cursive, with a long, sweeping underline that extends to the left.
